Watershed Uses

Conduct research to identify at least one specific example of agricultural, industrial, residential, and recreational land uses. Use an X to mark them on the map below. Label the business, recreation area, city, or farm.

Pretend you are the owner of a new business and want to build near the Cedar River. On a separate sheet of paper write a persuasive letter to the watershed board describing why your business should be granted permission to build. Include how you will use water and outline your plans to conserve and protect soil and water in the watershed.
