

Livestock Veterinarians

Caring for the whole animal including diet, housing, and treatment.

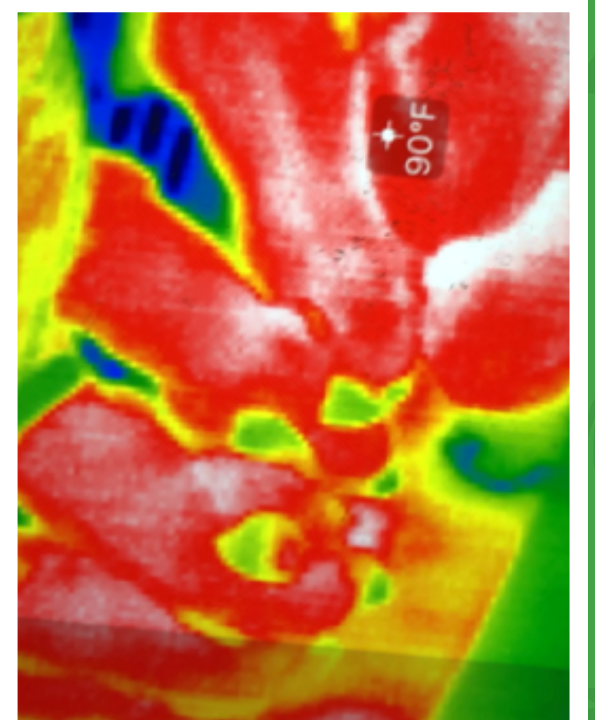

focus on the health and welfare of pigs, goats, cattle, and sheep!

Dr. Cara Haden is a swine veterinarian. She loves working with pigs! Farmers count on her to help them take care of their pigs. Dr. Haden uses problem solving skills to make animal welfare choices.

Veterinarians Use Tools

A Therma Camera helps veterinarians know if the barn is warm enough or if a sow has a fever.

What problems could livestock veterinarians help solve?
