Writing About
Agriculture!

2023—2024 Contest Theme:

Innovation in Agriculture

Iowa Agriculture
Literacy Foundation

www.iowaagliteracy.org

- **Overview:**

- A Bushel of Stories is an agriculture writing contest for students grades 3-8 to write a story book about agriculture or food.
- Submissions will be accepted until **March 22**.
- **Judging and publishing has been paused for an indefinite period.**
- Associated lesson units for the program are linked below.

- **2023-2024 Theme: Innovation in Agriculture**

Innovation can be described as coming up with new, creative ideas, solutions, or inventions to solve problems or make things easier. This year's A Bushel of Stories competition encourages students to write about past, present, and/or future innovations. Stories could focus on one era of innovation or a combination of eras.

Past innovations are those that occurred before the year 2000. George Washington Carver is a great example of past innovation in agriculture. Carver developed over 300 alternative uses for peanuts, sweet potatoes, and soybeans.

Present innovations are those that have occurred from the year 2000 until now. Maria Andrade is a present-day agriculture innovator. She has developed 9 drought-tolerant sweet potato varieties for farmers in Mozambique.

Future innovations are those that answer the question, "where will agriculture go?". Students choose something that exists today and predict how it could change or be used in the future. For example, wind energy is used today, but where could it go? What could happen?

Not sure what to write about? Help jumpstart your writing with [these ideas!](#)

- **Timeline:**

- Contest submissions due: **March 22**
- Drawing will take place no later than April 15.

- **Prize Information:**

- Judging and publishing of the A Bushel of Stories submissions has been paused for an indefinite period.
- Educators that submit qualifying stories that fit this year's theme, *Innovation in Agriculture*, will be eligible to be entered into a drawing to receive an agricultural themed gift that can be used in the classroom.

- **Contest rules:**

- Students will be responsible for writing a story fitting the year's theme
- Stories can be fiction or nonfiction
- Though fiction stories may have unrealistic plotlines or characters, the agricultural concepts should still be accurate (for example, a personified ear of corn can give a tour of a corn farm, but the farm should be depicted with accurate corn growth stages, crop care, etc.)
- Books should show agriculture in a positive light
- Books should not use registered trademarks (avoid brand names and taglines)

- **Project submission:**

- Please submit each student's projects separately using [this online portal](#)
